

The image shows four separate coordinate systems, each with a vertical y-axis and a horizontal x-axis. Each system contains a single line segment starting from the origin and extending into the first quadrant. The lines are labeled as follows:

- Line **K** in the first system, starting at point **A** on the x-axis.
- Line **L** in the second system, starting at point **F** on the x-axis.
- Line **M** in the third system, starting at point **G** on the x-axis.
- Line **N** in the fourth system, starting at point **H** on the x-axis.
